of ancient traditions**

MENGUCCI SELECTION

Our range of high value products ready in stock.
Colors and finishes as shown.

The perfect answer to the needs of:

- **Architects, Kitchen Studios, Designers and Contractors** who are looking for high value solutions that are immediately available for the creation of kitchens and furniture for residential housing, high level buildings and villas
- **Kitchen Manufacturers** who want to widen their range of Kitchens without having to increase the level of inventories in stock
- **Wholesalers and Retailers** of kitchen components in Europe.

Selection 083

Expresses the tradition of Italian farmhouses furnished in real wood and lacquered with classic colors, artifacts that were embellished wear and over time.

The special processing to "antique effect" on the solid and the finish make this product line of high quality and value.

FEATURES OF THE MATERIAL

Wood is a natural material that remains alive in time.

The use of solid wood involves differences in grain or shade among some of the parts and this define and enhance its particular beauty.

We know the essences that have been working for many years and we know how they react in the environment.

To always guarantee the very best satisfaction of our customers we constantly test and validate the production processes and technique by our Quality Management System UNI EN ISO 9001 certified ICILA - IQNet.
